

Training

Efficient operations with a competent staff

Professional training enhances employee competence and motivation, improves site safety, productivity and reduces downtime. ABB provides drive courses for your personnel.

Global training network

More than 20 drive training centers serve you globally. Additionally, ABB offers onrequest courses at your site.

In-depth knowledge

Refresh and enhance the competence of your staff. Expert utilization of ABB drives' advanced features enables the most efficient equipment operation.

Different learning modes

Choose the best match for your needs from the variety of delivery methods available. Pick your preferred mode from combinations of e-learning, classroom and on-site training.

Empower your employees

Professional training in a stress-free environment improves safety at work and motivates staff.

Check the ABB University courses' availability, descriptions and schedules with ABB University or contact your local ABB for more information.
