ABB MOTION SERVICE

# ACS607XT to ACS880R Retrofit

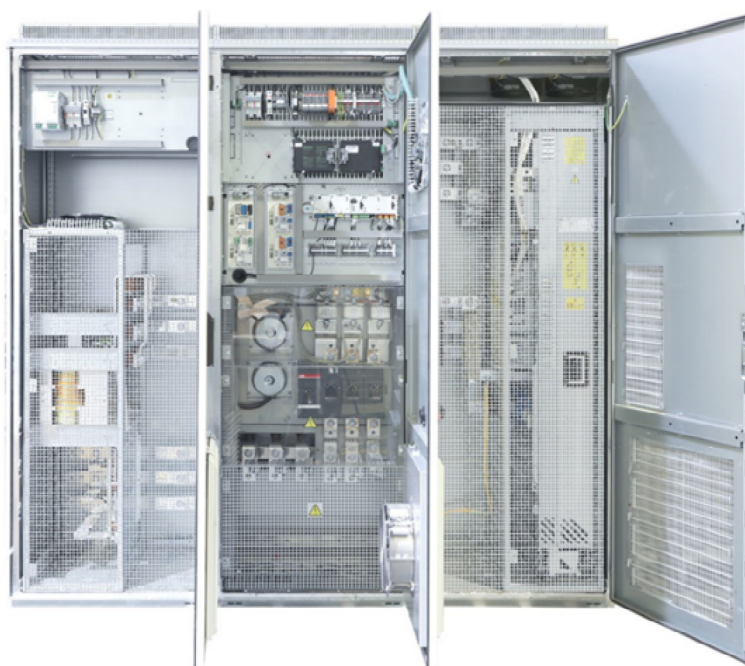

## Sales release note

Retrofit service is now available for **ACS607XT Single Drives (2xR8–2xR9)**. This release allows customers now to start retrofitting their ACS600 Single Drives installed base with ACS880 technology

### Target market group and benefits

Target group is ACS600XT Single drives owners. ACS600 Single drives has been used in wide range of applications in several different industries, such as Water&wastewater, Chemical, Oil&Gas, Power Plants, Pulp&paper, Rubber etc.

By re-using the existing drive's cabinet and cables the Retrofit service helps to keep the waste at minimum. Especially in cases, where physical access to drives is difficult, Retrofit allows customers to keep installation costs in control, being sometimes the only possible solution to modernize the existing installation.
